First, the Kingdom: A call to reflect and represent the Kingdom in your Assigned Spaces of Influence

By William Burckson,
President KMN

The kingdom dominion government on earth is God's heartbeat for mankind. Thus, First, the Kingdom mindset is the divine priority for life on earth. God is an eternal King and is totally motivated by the advancement of his kingdom influence on earth.

Matthew 6:33

But seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you.

Mathew 6:33 is Jesus' disruptive interruption of fallen man's insatiable pursuit of the mundane. He brings divine perspective and kingdom vision for life on earth. Jesus came to call and restore mankind back to God's kingdom dominion government on earth and not the mindless pursuit of things for self-gratification.

Life on earth is but an expression and expansion of God's kingdom government.

When mankind functions as the image and likeness of God, places, spaces and spheres will be heaven on earth.

Genesis 1:26

And God said, Let us make man in our image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth.

The above scripture captures God original intention for mankind in his image and likeness, that is exercising the kingdom dominion government of God on the earth. This text answers the question of mankind's universal purpose on earth. However, every individual has specific assignments which serves as the vehicle for delivering and fulfilling purpose-Dominion over and leadership of the works of God's hand.

Meanwhile, God's kingdom dominion government is not a religion. This is worthy of rehearsal. The kingdom is not a religion. It is a divine culture derived from God's kingdom ideology, kingdom theology, kingdom philosophy and kingdom psychology. You must imbibe the concept of God's kingdom dominion to fully reflect God and accurately represent his kingdom in your assigned space.

It's first, the kingdom!

THE CONVERSATION

No nation can develop without its demographic majority. The goal of this network is to arm every Christian with the necessary understanding of the Kingdom of God, so that every one of us will have a Kingdom agenda in the spaces we are already operating in.

It is when all of us have this mindset that entrenches God's Kingdom in our spaces, that we can become selfless enough to deliver value for others and contribute to societal transformation. Our numbers as Christians must count for something! Jesus hopes for a generation that will arise to live for Him on the Earth. However, this may never be realized, if we don't have a kingdom agenda. Each of us must become the best in our fields until we influence policy and thinking. It's possible to be a bright light that cannot be ignored in your space. Joseph did it, and we can too!

Every one of us is a victim of our thinking. After choosing how to think, you lose the power over who you will become or what you will become. God has a place for your mind in His Kingdom. God doesn't want you to be mindless. He wants you to so develop your mind that he can use you to accomplish his purpose on the Earth.

Abe

We all agree that a lot of things don't work in our country. However, the real question is, what can we do about it? How can we make an impact? We can leverage our services and create an ecosystem of productive Christians. Let's not just be prayerful, but productive also. I'm encouraged that we are standing on the word and doing the things that God has already mandated us to do. My prayer is that this fire blows up and becomes viral.

Yaw

If we focus on how we can help one another and empower the spaces we find ourselves in, we can achieve something. We are stars and we should shine like the brightness of the firmament. One star is not enough to light up the sky; we need several stars and all of us are stars, but we all have to shine in our spaces in the sky for us to light up the skies.

Everybody carries some gifts, products, or services. You need Hebrew midwives, and not Egyptian midwives from pregnancy to birth, or else your baby will be killed. Kingdom Minded Network will help you birth some of the things you have conceived. We can't wait for the government. We must influence spaces and light up our candles wherever we are!

Derrick

One thing that bothers me as a Christian is why there's not a single African country that is prosperous? I can't accept that! I believe that God wants to demonstrate to the world that an African nation can rise to become prosperous and have influence. However, He needs people to do that. Many people have a very negative mindset about the nation. It is very refreshing to see that there's a group of people with a visionary outlook to change that mindset. I'm happy to be a part of this vision.

HERE'S WHAT OUR PARTICIPANTS THOUGHT ABOUT KINGDOM KONNECT...

Alice

This is my first time here and I was so blessed and impacted by the words of Pastor Burckson. Not only was my mind renewed, some of the things I've been thinking about doing professionally were affirmed. I want to be a professor. I've never walked into a class where any of my professors shared any thought-provoking and scriptural thing so I want to be that professor that walks to a class and shares a quotation with my students. I am happy to be able to join this to make an impact in my community and the world at large.

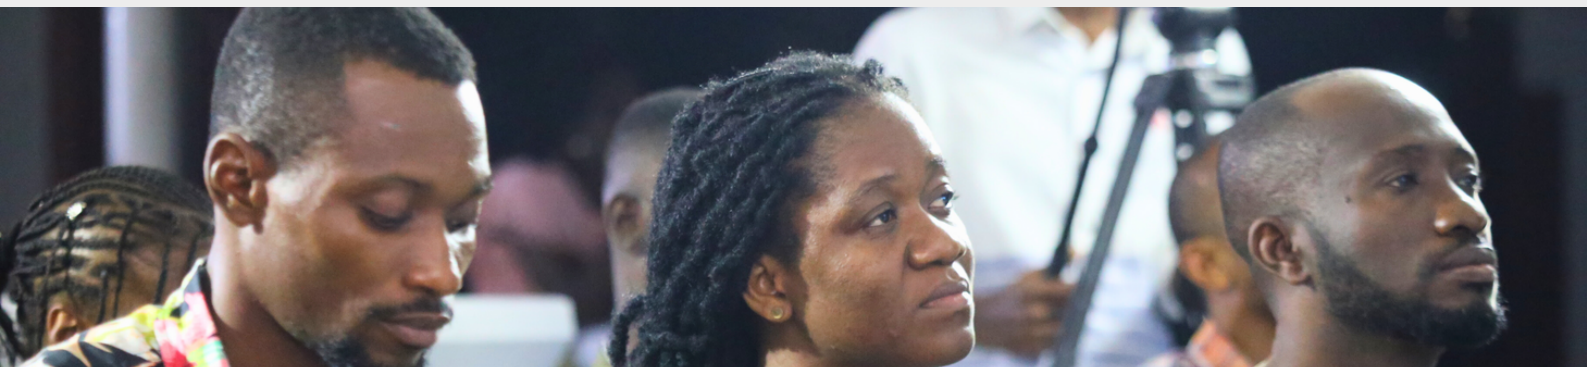

Abe

Kingdom minded network is exactly what we need now as Christians, because we have, the numbers. We just need to leverage those numbers to take advantage of, and build businesses within the Community. Doing business with Kingdom minded people makes business sense because it is easier for us to create value, jobs, and move value within our ecosystem and consequently influence our communities. This network will create the next generation of value creators that will help the Kingdom of God grow and be strong, as it's meant to be. I look forward to the engagements within the network and I would always be very supportive with this initiative.

Millicent

I want to encourage everyone to be part of this network. The KMN focus is clear. First the Kingdom! If you're an entrepreneur and you want to be part of a network where you can build your capacity, this is the place. Here, you can develop your entrepreneurial skills to generate real impact that will transcend generations. Being part of this network has improved my business. Here, you are going to meet a myriad of other entrepreneurs, and the good news is when you make impact, it's not only going to be about you and your family, but it's going to help to boost the national economic growth, create jobs, and also empower other people to do whatever God has called them to do. So, join the Kingdom minded network and your life will be transformed!
